

EASY WEIGH

The Isle of Wight's #1 Produce Shop
We care about our customers and our environment.

A wide variety of products too numerous to mention here, but I'll try to give you the highlights. Starting with the Home Brew section, as we are the only source on the Island. We have many kits to make Beer, Lager, Cider and Wines enabling beer and wine to be produced very cheaply.

We have dried fruit, sugars, cereals, cake ingredients and flours, all sold loose so that you can buy the exact amount that you need.

There are cleaning products, including the ECOVER range, which are designed to help the environment. If you fancy curry why not try the Patak range or some of the many other products for Chinese, Thai or Japanese cooking. We have a range of goods suitable for vegetarian, gluten free and wheat free diets. If you just want a snack, there are crisps, instant noodles and a variety of biscuits.

This is a small selection of the full range we provide, if you have any particular needs, please do get in touch.

WINE KITS

Young's brew
Chardonnay starter kits
(sugar sold separately) equipment included
Cabernet Sauvignon
Cellar 7
Italian white
(all ingredients included) (equipment sold separately)
